ACKNOWLEDGEMENTS

The Study

The Voter Study of the 2014 European Election Study was designed and carried out in co-operation with the European Parliament. The EES part of the study was funded by a consortium of private foundations, led by the Volkswagen Foundation and supported by the Mercator Foundation, the Swedish Riksbank Foundation, and the Portuguese Gulbenkian Foundation. In charge of the fieldwork, TNS Opinion generously supported the study throughout.

The Euromanifestos of political parties are currently being analysed; this part of the study has been funded in the framework of the EUENGAGE project under the Horizon 2020 funding scheme of the European Commission.

The content of Twitter communications of EP candidates and their followers during the election campaign was ‘harvested’ on behalf of TNS and made available through TNS to the research group.

The Conference

The conference would not have been possible without the generous support of its host institution, the MZES.

The conference is co-funded by the Fritz-Thyssen-Foundation.

The conference dinner on Saturday night is co-sponsored by the Mercator Foundation.

The Convenors

Hermann Schmitt, Sara Hobolt and Sebastian A. Popa are most grateful to all institutions and actors involved for their support.
